

STICK STEER

FREEDOM TO DRIVE

MPS
Guidosimplex®

STICKSTEER SECONDARY CONTROLLER

Guidosimplex has been the leader in the mobility equipment industry for over 50 years. Pairing innovative designs with unrivaled technology, Guidosimplex provides stylish and safe mobility solutions.

The Sticksteer is a small WIRELESS removable keypad that attaches to your steering wheel, to give you fingertip control of 11 functions (lights, turn signals, windshield wipers, horn, and more) without taking your hand off the wheel. The ergonomically designed steering knob fits into the palm of your hand and your fingers wrap comfortably around the knob. Your thumb controls the functions. Illuminates for night driving. Quick connect pin allows for fast removal.

STICK STEER

ILLUMINATED KEYPAD CONTROLS 11 FUNCTIONS

- Headlights and high beams
- Intermittent windshield wiper, emergency flasher, windshield wiper speed, turn signals, horn, rear windshield wipers, parking lights, and windshield cleaner.
- Daylight sensor also turns on headlights automatically (Ex. entering a tunnel).
- Backlit for night driving.
- Attaches anywhere on your steering wheel that steering spokes allow
- Enable back-light for night driving

The Guidosimplex “simple driving” advantage: Infrared control means less modification to your vehicle -- faster installation and better maintenance of your vehicle’s value for resale.
